

SPEAKER RESOURCES

Name: Chidinma Oham

Title: Developer Advocate & AI Researcher

Very Short Bio (1–2 sentences)

Chidinma Oham is a Developer Advocate and AI Researcher focused on enabling engineers and advancing responsible, ethical AI systems. She speaks globally and creates technical content at the intersection of developer experience, AI safety and community-driven product development.

Short Bio (One Paragraph)

Chidinma Oham is a Developer Advocate and AI Researcher with a background in Computer Engineering. She holds a First-Class Bachelor's degree in Computer Engineering and has professional experience across frontend systems and API design. Her work centers on enabling developers worldwide through technical education, community engagement and advocacy, while also advancing conversations around ethical, privacy-preserving and responsible AI. Chi shares her insights through technical writing and as a speaker at global conferences.

Medium Bio (2–3 Paragraphs)

Chidinma Oham is a Developer Advocate and AI Researcher with a strong foundation in Computer Engineering. She graduated with First Class Honors after completing a five-year Bachelor's degree in Computer Engineering and gained hands-on through software engineering industry experience focused on frontend systems and API design.

Driven by a passion for impact beyond writing code, Chidinma transitioned into Developer Advocacy where she works at the intersection of engineering, education and community. Her role involves representing companies at global events, creating clear and practical technical content, gathering developer feedback and ensuring product teams build solutions that genuinely serve the needs of engineers.

Alongside her advocacy work, Chi is deeply invested in the future of artificial intelligence. As an AI Researcher, her focus lies in ethics, safety and privacy, advocating for responsible AI systems that respect human values and user trust. She regularly shares her research, insights and perspectives through technical writing and international speaking engagements.
